I yelled at mom and sister for emotionally blackmailing me: I was sober... I may not have come down totally off the Adderall earlier in the day but it was all good until my mom and I started discussing dad and looking for ways to make their relations more harmonious. (they're divorced but mom is currently using his finanacial help to tie her over between jobs...). Then I thought about my last relationship and told mom that dad is very upset with her for not supporting him when he needed it--strikes a nerve. Mom starts crying. Sister to the rescue. I tell them to stop making a scene and bark at them both to compose themselves. I basically told my mom and sister to apply themselves, not play the victim and that they think they deserve everything. It wasn't alcohol. It was women (or /pol but /pol is right about this...). We'll see when they no longer hate me because I sure as hell am not contacting them first.

I'll do the pol format next time. Forgive me faggots. it's Christmas
